## Summary

---

Front-end developer with more than 1 year of commercial experience, specializing in ReactJS applications development.

## Experience

---

### Teamit Inc

Decebmer 2022 – Present

*Front End Developer Intern*

Djizak, Uzbekistan

- Mentored junior developers enrolled in a front-end bootcamp program. Guidance and support on topics like HTML, CSS, JavaScript, and web development best practices.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Assisted students with debugging code, troubleshooting challenges, and understanding complex concepts.

### Djizak Presidential school

October 2023 – Present

*CS, Web Mentor*

Djizak, Uzbekistan

- Mentored talented high school students enrolled in a prestigious CS program at Presidential School
- Assisted students with solving coding challenges and building web applications.
- Assisted students with debugging code, troubleshooting challenges, and understanding complex concepts.

## Projects

---

### Content Management System (CMS) for Clay | *JavaScript, React*

November 2023

- Implemented functionalities like user login, registration, and link protection using React Hooks. Specifically, I encountered a challenge in the user registration section where I needed to securely capture a token from the backend and use it for login. To address this, I researched and implemented a secure method to receive and store the token using local storage with encryption. This ensured a smooth user registration and login process. Through this experience, I gained valuable knowledge on secure token handling practices in React applications.
- Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected.

### Start Fit GYM | *JavaScript, React*

October 2022

- Utilized HTML, CSS (including SASS,), and JavaScript to create a user-friendly and visually appealing website showcasing gym memberships, class schedules, and trainer profiles.
- Implemented features like contact forms, booking functionality, or a membership signup process.

## Education

---

### Kazan Federal University

Present

*Bachelor of Information Technology and Intelligent Systems*

Djizak, Uzbekistan

## Technical Skills

---

**Languages:** HTML/CSS, JavaScript, Typescript

**Developer Tools:** VS Code, Swagger, Postman, Firebase

**Technologies/Frameworks:** Linux, GitHub, React, Vite
